All information concerning features, design, performance, dimensions, weight, fuel consumption and running costs is correct at the time of publication. Errors and omissions excepted. Please contact your Porsche Centre for the final and officially certified values.

¹ All current petrol engines from Porsche are compatible with a fuel ethanol content of up to 10%. The diesel engines are compatible with a biodiesel blend of max. 7%.

² Fuel consumption was recorded on vehicles with standard specification. Optional equipment may affect fuel consumption and vehicle performance. The data presented here was recorded using the Euro 5 test procedure (715/2007/EC and 692/2008/EC) and the NEDC (New European Driving Cycle). The respective figures were not recorded on individual vehicles and do not constitute part of the offer. This data is provided solely for the purposes of comparison between the respective models. For more information on individual models and country-specific test procedures, please contact your Porsche Centre.

³ In conjunction with the optional 19-inch all-season tyres (optimised for rolling resistance).
